Choose Orrcon Steel's MECSPEC-GAL[®] for a durable and reliable mechanical tube solution

Orrcon Steel's MECSPEC-GAL[®] presents a high quality galvanised steel coating. Shorter production lead times are achieved because manufacturing is at our South Australian Precision Manufacturing Mill using BlueScope steel.

Finished tube properties achieve minimum 350 MPa yield strength. MECSPEC-GAL[®] provides guaranteed ductility for mechanical manipulation and end-use.

The BlueScope coil used in Orrcon Steel's MECSPEC-GAL[®] Tube is hot dipped zinc coated with a spangled surface. The combined coating thickness of both sides is 275g/m².
